

The author got permission from AIP Emilio Segrè Visual Archives to use the photo of this page in the printed edition only. Therefore, the reader of the PDF version is requested to see the photo at the above AIP Web site. The URL of the photo is <http://bit.ly/93JRYF>.

Hideki Yukawa and Richard Feynman during Feynman's visit to Kyoto, Japan, in the summer of 1954. Left to right: Mrs. Yukawa, Satio Hayakawa, Feynman, Yukawa, unknown, Minoru Kobayashi. (Courtesy: AIP Emilio Segrè Visual Archives; caption quoted from Laurie M. Brown and Lillian Hoddeson, "The birth of elementary-particle physics," *Physics Today* Vol. 35, No. 4, p. 36.) The related story is given in Part I, Section 1.1.

Richard Feynman and the author can be seen in this shot, which is part of the group photo of “Kyoto International Symposium: the Jubilee of the Meson Theory, 15–17 August, 1985.” The leftmost in the back row is Feynman; and the rightmost in the second row from the back, the author. The number of participants in the Symposium was more than 200, and four Nobel-winning physicists including Feynman were present. The related story is given in Part I, Section 1.7.

Meeting of Friends of Tuva, Japan, (FOTJ) held in Osaka in 1994. The leftmost is Ako Hōki, the leader of FOTJ; and the rightmost, the author. (Courtesy: Ako Hōki.) The flag held is the national flag of Tuva. Tuva is a republic, situated in the far south of Siberia, with the capital city of Kyzyl being located at the geographic “center of Asia.” In his last years Richard Feynman wished to reach there not as a famous physicist but as an ordinary citizen.

A scene of “Vicky: A Novella”? In fact, the photo was taken at the reunion of Kindai Senior High School held in Tokyo in 1991. Left, the model of Vicky, Shizuko Takahashi; and center, the author. (Courtesy: Jiro Yotsuya; effects applied by the author.)
